

Connecting ASEAN and Beyond: Makarim & Taira S. at the 2025 DNA Cybersecurity Seminar

On Friday, March 14, 2025, the [Drew Network Asia](#) (DNA) Cybersecurity and Data Breach Management Seminar brought together over 250 industry professionals from across ASEAN, Australia, China, Hong Kong, India, Sri Lanka, and the United States of America in a one-day hybrid event.

We were proud to share that our Partners, [Heru Mardijarto](#) and [Reagan Roy](#), were among the key speakers, offering their expertise on cybersecurity and data breach management in Indonesia. Their insights, alongside those of other DNA lawyers covering other ASEAN regions and industry experts, fueled engaging discussions on cyber-insurance, forensics, regulatory updates and crisis communications, critical issues in today's digital landscape.

The seminar also featured [Chong Kin Lim ???](#), [David N. Alfred](#), [Anastasia Su-Anne Chen](#), and Albert Pichlmaier from [Drew & Napier LLC](#), [Janet Toh](#) and [Timothy Siaw](#) from [Shearn Delamore & Co.](#), [Erika Paulino](#) from [Martinez Vergara & Gonzalez Sociedad \(MVGS\)](#), and [Nopparat Lalitkomon](#) from [Tilleke & Gibbins](#), along with industry leaders from Howden, FTI Consulting and Ensign InfoSecurity.

A huge thank you to all who joined us, whether in person or virtually. We hope the discussions were insightful and that you had a great opportunity to connect with fellow industry professionals.
