

Makarim & Taira S. Marks World Down Syndrome Day with Inclusive Bazaar

We had the privilege of celebrating World Down Syndrome Day with a special bazaar in our office on the 16th floor of the Summitmas I Building. Together with ISDI and [Yayasan POTADS](#), we welcomed talented young individuals with Down Syndrome, who showcased and sold a variety of products—from food and beverages to souvenirs and handcrafted artworks.

This event was more than just a marketplace; it was a celebration of inclusivity and creativity. Attendees, including Makarim & Taira S. family and other Summitmas tenants, had the chance to witness, support and appreciate the hardwork of these incredible individuals. The day was made even more special by performances by ISDI and POTADS participants, featuring music, dance and poetry readings.

For Makarim & Taira S., inclusion is more than just a one-day celebration. Since 2018, we have been implementing an internship program for individuals with Down Syndrome, providing them with opportunities to gain valuable work experience and be part of a professional environment. This initiative remains an ongoing commitment, reflecting our

dedication to fostering a more inclusive workplace.

We are grateful to everyone who participated and contributed to making this event meaningful. Let's continue to support and empower individuals with Down Syndrome — inclusion makes us all stronger.
