

The Implementation of the Presidential Regulation on Renewable Energy: The Beginning of the Transition from Coal Fired Power Plants to Renewable Energy Power Plants

President Joko Widodo has just issued Presidential Regulation No. 112 of 2022 on the Acceleration of Renewable Energy Development for the Supply of Power which came into effect on 13 September 2022. The PR on Renewable Energy introduces key major provisions which may significantly affect the electric power industry, especially with the phasing out of coal-fired power plants, and urges prioritizing the development of renewable energy power plants. These advisory highlights the key provisions.
